Bryan Biegel

Director of the National Coordination Office (NCO) for the Networking and
Information Technology Research and Development (NITRD) Program
(August 2016 - August 2018)

Dr. Biegel joined the NITRD NCO from the National Aeronautics and Space Administration
(NASA), where he served as Deputy Chief of the NASA Advanced Supercomputing (NAS)
Division. He also served as the NASA Representative on the NITRD Subcommittee and Co-
chair for the High End Computing (HEC) Interagency Working Group (IWG).

Prior to joining the NASA NAS Management Team, Dr. Biegel worked as a contractor at the
NAS facility, pursuing research in modeling and numerical simulation of nanoelectronics,
space electronics, and quantum electronic devices.

Dr. Biegel received his bachelor's degree and master's degree in Electrical Engineering from
the University of Oklahoma, and holds a Ph.D. in Electrical Engineering from Stanford
University.

Dr. Biegel has 17 years of experience in software development for large-scale electronic device
simulation and has published over 30 technical papers.
